

## **Senior PHP Developer – Competitive Salary + Benefits – Bury St Edmunds, Suffolk**

### **The Role**

An International software and marketing company is seeking an experienced PHP Developer to work on a range of new features for their award winning commercial real estate software platform. The successful candidate will be involved in all aspects of web application development from new functionality, to integration testing, maintenance, and upgrades.

The key responsibilities of a Senior PHP Developer include, but are not limited to:

- Collaborating with other members of the development team to set specifications for new applications; Designing creative prototypes according to specifications.
- Writing high quality code to program complete applications within deadlines; Developing technical documents and handbooks to accurately represent application design and code.
- Performing unit and integration testing before launch; Conducting functional and non-functional testing; Troubleshooting and debugging applications; Evaluating existing applications to reprogram, update and add new features.

### **The Company**

The company head office is based in Bury St Edmunds, Suffolk, but also has offices in Warsaw, Poland and Los Angeles, USA. The company has clients in 23 countries and works with some of the world's most iconic locations. The candidate will be joining a team of other software professionals passionate about delivering the best possible products for their users.

### **The Person**

The key skills and qualities of a Senior PHP Developer:

- Proven experience as an application developer/engineer; Designing and building applications and working with the LAMP stack and front end technologies (Linux, PHP, MySQL, JavaScript, HTML, and CSS).
- Experience and familiarity with source control (GIT); MySQL skills; Working knowledge of JavaScript, CodeIgniter, Laravel (or other MVC frameworks).
- An understanding of Agile approaches; Appreciation of software testing procedures; Ability to develop code within company standards and guidelines.

If you are highly motivated and interested in joining this growing and innovative company, please apply now to find out more.
